HELLO SUNSHINE

Sunflower: our main theme for our spring & summer collection creates a retro look. By using a colour pallet of yellow tones mixed with crème and beige, this collection feels vibrant and warm. Butter soft hues combined with energetic orange accents and a dash of gold. This combination makes up for a radiant collection to celebrate the upcoming spring and summer.

Our handmade lampshades are pure craftsmanship

Light & Living is originally a lampshade company

In our atelier in Noordwijk we develop and produce - as one of the few companies in the Netherlands - handmade lampshades. Twice a year, we make a seasonal change. We look at which fabrics fit on our lamp bases. We make sure to be on top of the latest trends by frequently checking new fabrics at our suppliers and developing our own designs. New trends are mostly based on material, print or colour.

Many variations possible

Introducing our shades into the themes of our collection, we select our colours and designs carefully to create perfect combinations. It is important to us to always test a fabric with and without lighting so we can make sure both look amazing. Annually we produce 180,000 lampshades by hand in our studio in Noordwijk. This makes us immensely proud!

1 An advanced cutting table cuts all sorts of different materials and sizes. This makes up for a produce of 900 a day. 2 To ensure extra firmness, larger lampshades are sown together. Smaller lampshades are glued together with a machine. 3 The inside rings of the lampshades are positioned with care and precision. 4 The edges of the lampshades are neatly folded with transparent, non-staining glue. We produce about 3,500 lampshades a week, over 180,000 shades a year! 5 Lastly, all the lampshades are collected and provided with protective film, ready for shipment!
